Ko Ngāti Koata te iwi na Rangitoto ki te Tonga.
Ngāti Koata is the iwi from Rangitoto ki te Tonga/D'Urville Island.

RAW HONEY

Our beekeepers favourite honey comes to you RAW from the hive. We believe honey tastes best if it's not heated beyond temperatures that occur naturally in the hive, retaining health supporting enzymes.

Single batch RAW captures the distinctive floral sources around each apiary and because it is not processed, RAW honey will develop crystals and harden, just as nature intended.

Enjoy the honesty and flavour of RAW.
